

Central London School of Anaesthesia Novice Course

This course provides an introduction to the basics of
Anaesthesia & the Training Programme

Delivered by means of interactive lectures and small group work, the February course is tailored towards both the **Anaesthetic & Non-Anaesthetic Trainee** starting their rotation in Anaesthesia.

We cover topics including:

The Curriculum - The Anaesthetic Machine – Airway assessment & management – Drugs
Equipment – Basic Paediatric Anaesthesia - Emergency Scenarios

14th, 22nd & 28th February and 8th March 2019

Royal Free Hospital, London

*'Informative, well planned,
nice team of facilitators'*

'Very useful & relevant'
