

- The minimum number of assessments required for each unit of training is listed below
- Each unit of training has **Core Clinical Learning Outcome(s)** (CCLO) which must be covered by at least one assessment: see the full Advanced Level curriculum (Annex E) for details
- Enter all relevant knowledge and skills competence codes on each assessment in ePortfolio
- One assessment can be linked to a number of competences and can cover more than one CCLO - for example *IAC* assessments may also cover *Introduction to Anaesthesia* competences, or a CBD for *Day Surgery* might also cover the requirement for *General, urological and gynaecological surgery*

UNIT OF TRAINING	A-CEX	ALMAT	CBD	DOPS
<b>ADVANCED TRAINING</b>				
Satisfactory attainment of these generic areas (domains) is the only 'essential' part of advanced training. Trainees and trainers must refer back to these six domains as and when necessary, for example in MSFs				
Domain 1 – Clinical Practice	1	1	1	
Domain 2 – Team working		1		
Domain 3 – Leadership				
Domain 4 – Innovation				
Domain 5 – Management				
Domain 6 – Education				
<b>CLINICAL UNITS</b>				
Anaesthesia for neurosurgery, neuroradiology and neurocritical care	1	1	1	
Cardiothoracic anaesthesia and cardiothoracic critical care	1	1	1	
Intensive care medicine	See Annex F			
Obstetrics	1	1	1	
Paediatrics	1	1	1	1
Paediatric intensive care medicine	1		1	
Pain medicine	1		1	1
Perioperative medicine	1	1	1	
Plastics/Burns	1	1	1	
<b>General duties – including a mix of the following subunits</b>				
• Option of an A-CEX or ALMAT for each unit where specified				
Airway management	1			1
Day surgery	1	1		
General, urological and gynaecological surgery		1		
Head, neck, maxillo-facial and dental surgery	1	1		
Hepatobiliary surgery	1	1	1	
Orthopaedic surgery	1	1		
Regional	1	1		1
Sedation and Conscious sedation for dentistry	1			
Transfer medicine and emergency medical retrieval	1			1
Trauma and stabilisation	1			
Vascular	1	1	1
